## PEACE TREATY IS SUBMITTED TO GERMANY

**Remarkable Document Is  
Handed to German Dele-  
gates on Fourth Anniver-  
sary of Sinking of the  
Lusitania.**

VERSAILLES—Germany was told Wednesday the terms upon which the allied and associated powers will make peace with her. These terms were contained in a treaty of 80,000 words which was handed to the German plenipotentiaries at a memorable assemblage here today attended by delegates from 27 nations which are parties to the peace pact.

PARIS—German delegates to the peace congress declare that they will sign the peace treaty, but that Germany will not pay indemnity.

VERSAILLES—The Germans received the treaty at 3:07 Wednesday afternoon. The presentation of the treaty was followed by a speech by Premier Clemenceau in which he welcomed the delegates. A manuscript of the treaty translated into German was handed the enemy representatives by Secretary Dutasta. The entire ceremony lasted but 14 minutes.

VERSAILLES—Clemenceau opened the meeting for delivery of terms tersely as follows: "It is unnecessary to express needless words. You have before you the plenipotentiaries of small and great powers united in this most cruel war which was imposed upon them. The hour has arrived for a heavy settlement account."

VERSAILLES—The treaty was submitted to Germany on the fourth anniversary of the sinking of the Lusitania, Germany's challenge to civilization by torpedoing the big Cunard liner without warning.

VERSAILLES—Since receiving the treaty the Germans present have written a reply. It was read in German and interpreted into English and French.

"We admit that wrong was done Belgium. Germany is willing to make reparation. So far as the conduct of the war is concerned Germany was as humane as the Allies.

"The Allies killed many Germans after the armistice was signed. The measure of guilt can only be determined through an impartial inquiry. German archives are available."

The last words of Foreign Minister Rantzen who read the statement were, "We shall examine the documents submitted to us with good will and in hope that there will be a peace to which all may subscribe." Clemenceau then declared the meeting adjourned.

PARIS—As a basis for resuming participation in the peace negotiations Orlando has made a proposal that Italy administer Fiume as mandatory by the League of Nations until 1923, after which Fiume will revert to Italian sovereignty.

J. Nicholson, a contractor who was north last year doing some work for the Standard Oil company, arrived from Tacoma a few days ago for the purpose of putting in a new foundation for the store building of L. C. Patenaude.

## SPECIAL SESSION OF CONGRESS CALLED

WASHINGTON—President Wilson issued a call by cable Wednesday for a special session of Congress May 19.

WASHINGTON—Joseph P. Tumulty, secretary to the President, stated today that it would be impossible for the President to be here on the opening day of the Special Session of Congress.

PARIS—While no definite announcement is made it is understood that Wilson will remain until the expiration of the 15 days given Germany to consider peace terms.

PARIS—President Wilson made public today the nature of a pledge which he and Lloyd George have given the French government respecting aid the United States might render in case France is again attacked by Germany. "In addition to securities afforded in the Treaty of Peace," says official statement issued on his own behalf, "the President of the United States has pledged himself to propose to the Senate of the United States, and the Prime Minister has pledged himself to propose to the Parliament of Britain, an engagement, subject to approval of the League of Nations, to come immediately to assistance of France in case of an unprovoked attack by Germany."

## HARRY MCCORMACK ARRIVES FROM OVERSEAS

Harry McCormack, who recently returned from overseas, arrived on the City of Seattle Sunday morning. He will spend the summer in Wrangell with his brother, Leo McCormack.

Harry McCormack enlisted in the 85th Nova Scotia Highland Brigade in 1915. Among the many battles he went through were the famous Vimy Ridge, Avalon, Hill 70, Passendale, Amiens, Arras. At Cambrai he was twice wounded on September 29, after which he was taken to England.

Harry McCormack is much more reticent than his brother Leo, the coal baron. It took considerable questioning to obtain the above information. However, he is emphatic in declaring that he is glad it is all over, but there was so much horror connected with the great struggle that he has no inclination to recount his terrible experiences.

## PRINCE RUPERT SOON TO LAY KEEL

The Prince Rupert Dry Dock & Engineering Co., under the leadership of John L. Mullen, president, and Newman Erb, chairman of the board, is rapidly rushing work on the construction of several vessels for the Canadian Government. Under the expert guidance of J. V. Paterson, formerly head of the Seattle Construction & Dry Dock Co., and who has been engaged in advisory capacity, a splendid start has been made. Such additional equipment needed for the carrying out of the contract is now being purchased and installed and in a short time the first keel will be laid which will mark a new era for the Northern city. —Merchant and Marine News.

George Grigsby, Democratic nominee for Delegate to Congress, came as far as Petersburg on the City of Seattle yesterday. From Petersburg Mr. Grigsby will leave for the West Coast on a campaign trip.

## PROCEEDINGS OF TOWN COUNCIL

The regular monthly meeting of the town council was held on last Thursday evening in the town hall. All members of the council were present.

After the usual routine business had been transacted Hon. P. C. McCormack of the school board addressed the council. He notified the council that the school board had decided to employ a fifth teacher next year. He also stated that about \$600 would be required to finish the present school term. A motion prevailed that a warrant for \$600 be drawn in favor of the treasurer of the school board.

Bids were opened for furnishing gravel to improve the cemetery road. The only bidders were Wm. Berger and I. C. Bjorge both gentlemen bidding \$1.00 per cubic yard. On motion the bid of Mr. Bjorge was accepted.

The matter of making an extension to the water main from a point on Front street near Bank of Alaska to the radio station was discussed. In order to ascertain the cost of the same the chairman of the water committee was authorized to advertise for bids.

The town clerk was instructed to post and publish notices of the special election to be held on June 3rd to fill the vacancy in the office of delegate from Alaska. The Mayor appointed the following officers to hold said election:

Judges—L. M. Churchill, Mrs. Josephine H. Mason, T. J. Case, Clerks—Mrs. M. O. Johnson, J. E. Worden.

E. F. Carlstrom of the health committee reported an urgent need for a general clean-up. Dr. Shurick, the health officer, addressed the council at some length on the same subject. It is to be regretted that every person in Wrangell could not have heard the health officer's appeal for a cleaner town. He was insistent on a general clean-up, both as a precautionary measure against disease and as a means of improving the appearance of the town. The health officer also stated that there were several shacks that should be condemned and destroyed.

After some discussion a motion prevailed that Wrangell have a cleanup day and that Saturday, May 17 be set apart as a day for a general cleanup of all rubbish and garbage. It was decided to solicit the cooperation of the schools in bringing the matter to the attention of the children, as they can be of great help in this civic undertaking. The clerk was instructed to prepare and publish notices informing the public of the cleanup day and also giving notice that if any property owner failed to clean up his premises on or before May 17, the town would then have the premises cleaned up and collect for same from the owner.

The street committee which was appointed to go into the matter of a float in Etolin harbor for the fishermen, reported not being ready with an estimate. A special meeting will be called to hear their report provided they are ready before the next regular meeting.

The council voted to make the Alaska Sanitary Packing company a flat rate of \$100 for water for the coming season.

L. M. Churchill has received an official treasurer's receipt for \$84.50 from the American committee for Armenian and Syrian relief. The above amount was raised at the masquerade ball given jointly by the Redmen, Arctic Brotherhood and Moose.

## Cardinal Gibbons

### Asks Loan Support

Cardinal Gibbons, in appealing for support of the fifth Liberty Loan drive and War Savings campaign, said in part: "I urge all our clergy to promote this campaign by every means in their power. I urge our good people to give their heartiest support, and from the splendid evidences of their patriotism shown in the past two years I am confident it will meet with great success."

### Life Worth Living

After all, what are we living for? It's difficult to believe that the beneficent Creator put us on earth and said, "Now live, and find life sorrow, struggle and distress."

The same God which created man created the natural world, and in nature there is so much to make us happy and joyous and make us laugh. We don't know why we laugh; we simply know we are happy without reason.

Every man who lives in village or city, every man who works, has known more than one day when he has suddenly jerked himself away from his work and, with real anguish, cried to himself, "If I could only get away—up in the woods—up a creek somewhere!" He wants to get where there is no one around, where he is a free man—where he doesn't have to bother about what the neighbors think, what his trade thinks, or what other workers think: plain John, just an ordinary man, doing as he pleases, and answerable to no one but his God.

That's living!

That's happiness and joy!

That's what we were put on earth for; to soak up the fresh smell of the untouched earth, and the wild flowers, and the water; to feel our feet falling on earth that seems to heal the footsore; to rest our eyes on distances that fade away into the falling skies, and the nestling clouds. Then, you're your own master.

That's living!

We preen ourselves in civilization. We shrink from savagery, but civilization has made us pay, each one of us. Civilization has taken away our independence and has made us interdependent. That is not good, and if we can get away, even but once a year, and be alone with nature, we'll get back some of our manly heritage, the heritage of mastery, that has made man ruler of the world.

Follow the water-way, for the water-way takes you farthest from the world. Follow a road and you'll find civilization at the end of it. Follow the water-way and you'll sit on the top of the world alone. There'll only be the ripple of the water and the masterless wild things for company.

Think of your only cares to be a safe place to pull up your boat, a soft place to roll your blankets and an unwary fish to nibble at your hook. Isn't that living?

That's why we were put on earth, and living cleanly with nature will make you more ready to take up the life hereafter.

### They Call Me Private, But—

In the army they call me a private.

It is a misnomer. There is nothing private about me.

I have been examined by 50 physicians and they haven't missed a blemish.

I have told my previous occupation and my salary. I have confessed to being unmarried and having no children. I have nothing in my past that is not revealed. I sleep in a room with 50 men. I eat with 350 men and wash my kit in the same can. I take my bath with the same company. I wear a suit of the same material and cut as five million others.

I have to tell where I go when I take a walk and even then I never see any one but soldiers—privates like myself.

I have to tell a physician when

### Mother's Day

The second Sunday in May is Mothers' Day and will be celebrated at St. Philip's Church with appropriate music, readings, etc. Mother's Day is the day to cultivate a most necessary sentiment. A mother's advice always inspires, and he who follows it can never go wrong. The mother gives with an expectation of never receiving anything. Mothers' Day reminds that we should all strive to keep tied to our mother's apron strings until we are old enough to go it alone, perhaps seventy-five or eighty years!

Wear a carnation that day if you possibly can; get one and come and help in the celebration.

Two polar bear cubs will start from Nome some time near the middle of June for the National capital. If they arrive in good shape they will be used by the Washington Chamber of Commerce on a booster trip that organization is planning.

One day recently the Fairbanks siren blew to give warning of a fire in the city. One of the citizens who answered the call left some paraffin wax on his stove while he went to the fire. When he returned, his house was completely gutted by the flames which had been caused by the overheated wax. The original fire alarm was due to an overheated flue, that did no damage.

### Do Not Stop Work

### When Quota is Reached

Reasons Why a Substantial Over-subscription to the Victory Loan Should Be Obtained

Liberty Loan workers should not gain an idea that, because the Secretary of the Treasury has announced that Victory Loan notes will not be allotted in excess of the \$4,500,000,000 fixed as the amount of this Loan, work can stop in any locality as soon as its quota is obtained.

A substantial over-subscription of the Loan is very desirable:

First: Because of its effect on public sentiment.

(a) Politically: The peace treaty has not yet been signed. There is indisputable evidence that many German statesmen believe their opponents are war-weary and that a show of defiance may result in their avoiding proper reparation for their aggressions. A large over-subscription of the Victory Loan at the present time will have an immense moral influence in all of the capitals of Europe.

(b) Effect on Business: Confidence is the foundation stone of prosperity. A large over-subscription of the Victory Loan will do more than any other one thing to stimulate business and strengthen the markets for all other American securities.

Second: Because of its effect on

the market value of the Victory Notes.

A large over-subscription will tend to establish a market value for the Victory Notes at or above the issue price.

When the great bond houses offer for subscription an important new issue of bonds they conduct an intensive selling campaign and when the subscriptions come in if there is the slightest question as to the market for the new issue offered, they "over-allot." That is, they confirm sale of more bonds than there are in existence. This, to the uninitiated, may seem a surprising procedure. It is adopted because experience has shown that there are always a certain number of cancellations. Orders are duplicated. Subscribers ask for more bonds than they really expect to get, or change their minds. If, therefore, all subscriptions except just enough to make up the issue are rejected at the end of the selling campaign, these cancellations immediately throw a wet blanket of bonds on the market and the market declines. On the other hand, if sales have been confirmed in excess of the amount of bonds available, these cancellations are taken care of in advance, there is strong bidding for bonds to take care of the "short" sales, the market advances, and thousands of subscribers all over the country are pleased. The issue is a success.

Walter B. Heisel of the U. S. land office returned to Juneau on the Admiral Evans Tuesday.

## WANTED BY HUNS

Transport Northern Pacific  
One of Boats Germans  
Were Most Eager  
to Sink

PORTLAND, Ore. — The steamship Northern Pacific was one of four troopships most wanted by German submarine commanders, according to A. T. Hunter, Seattle navigator, who is now in Portland. He commanded the ship before she was bought by the Government and then served on the vessel during the war as a naval reserve officer.

"It was learned from German submarine commanders after the armistice was signed," said the captain, "that the Northern Pacific and Great Northern were known to them as the 'ghost ships' for the reason that before they could get into position to torpedo them the vessels would pass out of sight."

Each commander, the captain was told, had been offered a bonus for either ship in the order of the Leviathan, Mount Vernon, Agamemnon, Northern Pacific and Great Northern. These, the Germans said, they hoped to destroy because of the large number of troops they carried.

During her war service the Northern Pacific was fired on six times in a single attack, but the submarine was forced to dive before she could do any damage.

The Northern Pacific stood at the head of the transatlantic transport service, with the Great Northern a close second, according to Captain Hunter, the vessel carrying 28,000 soldiers across and bringing 5,000 back.

Ernest M. Campbell of Wrangell made more than ten trips across the Atlantic on the Northern Pacific.

Lieut. Colbert, who was in Wrangell in 1916 as a member of the Coast and Geodetic Survey party, was also on the Northern Pacific while she was transporting troops.

Forest Rix of Bridgeport, Wash., a cousin of Miss Ann O'Connor of the Wrangell public school, was also aboard the transport during the time it was serving the country so faithfully.

### Clean-Up Notice

Notice is hereby given that at a regular meeting of the Town Council held on Thursday, May 1, it was ordered that Saturday, May 17, be designated as cleanup day for the town of Wrangell.

Every person in Wrangell is urged to join in this civic undertaking, both as a precautionary measure, and as a means of beautifying the town.

All rubbish such as ashes, tin cans, bottles, and refuse of all kinds, should be removed or destroyed. The cooperation of the children is especially solicited.

The matter of cleaning up and beautifying our premises is one which should appeal to our civic pride, while the importance of a general cleanup as a sanitary measure can not be overestimated.

Inasmuch as it is the unanimous opinion of the council and the health officer that such a measure is imperative, the council hereby gives notice that if any person shall fail to clean up his premises on or before Saturday, May 17, the town will have the neglected premises cleaned, and charge the owner for same.

### BIG GAME HUNTERS ARRIVE

A. T. Bannon and James Blair of Portsmouth, Ohio, the First to Go Into the Cassiar This Season

The first big game hunters to arrive this season were Arthur H. Bannon and James Blair, both of Portsmouth, Ohio. These gentlemen arrived on the City of Seattle and will go up the Stikine with Capt. Conover the latter part of the week. Messrs. Bannon and Blair could hardly be classed as cheechacos, as this will be the third consecutive season they have hunted in Cassiar region. During the past two seasons Mr. Bannon has brought out the prize trophies, according to the measurements of the provincial game warden. He also made a record several years ago on the McKenzie river north of the Arctic circle.

Mr. Blair is retired. Mr. Bannon is a lawyer and banker. He had charge of four Liberty Loan campaigns in the city of Portsmouth, all of which were most successful. He also rendered service to the Four minute organization, making 150 speeches before various audiences.

Mr. Bannon's brother, Hon. Henry T. Bannon, who has also hunted in Cassiar the past two seasons, will be back again this year, arriving in August.

The Bannon brothers are both boosters for the Northland. While in Wrangell last year Henry Bannon purchased a number of pictures from J. E. Worden and Rev. H. P. Corser. Upon his return to Ohio these pictures were shown on the screen before the Portsmouth Commercial club. His description of Alaska and the Wrangell pictures were the principal features of the evening's entertainment.

C. R. Arundell, Wrangell townsit trustee, left on the City of Seattle yesterday for Ketchikan. Mr. Arundell has cleaned up all business in connection with the Wrangell townsit except selling unclaimed lots. These will be auctioned at a later date.

### How Do You Feel About It?

Are you thankful for the crushing of Hun-ism?

Are you thankful for the privilege of living in a free country?

Are you thankful for the sight of the faces of "our boys" who are coming back to resume their places in the homeland?

Are you grateful for the look of relieved tension on the faces of the mothers and dads of those returning boys?

Does your heart beat in sympathy for the sorrow in the eyes of those whose boys are asleep in the sacred soil of France?

Then express that sympathy for those who, though they suffer, yet solemnly rejoice at the willing sacrifice made by their patriot dead, and express your own thankfulness for blessings vouchsafed to you by rendering to our beloved country that helpfulness without which these glorious achievements would have been impossible, and without which the darkness of freedom crushed would have been our future portion.

A Victory Bond gives concrete evidence of your thankfulness.
